Pool party on July 4 2023

On July 4th, 2023, a group of young adults organized and held a party by the pool area.

Unfortunately, this event took place without the explicit authorization of the HOA Board.

The following is the original message that was sent to the community to address the matter:

*Broken glass has been found in the pool by the pool company. Regulations require that we immediately close the pool, drain it, clean it, and refill and balance the chemicals. This means the pool is now closed and will remain closed until sometime next week.*

*This also means that the folks that did this damage are now legally liable for damages to HOA property. We will be filing a police report and seeking damage compensation along with lifetime pool bans.*

*[. . .]*

*It only takes a few bad folks to ruin it for everyone. If you have any credible information, please email me [. . .]. We have camera footage and card access records, but the more info we get, the better.*

The current members of the HOA Board have reached a consensus to **permanently** disable the pool access card that was used to initiate the unauthorized event on July 4th, 2023. As a result, the homeowner responsible for this card will be denied access to the pool facilities.
