

The Millstone Ridge Homeowners Association, Inc.

Matthews, North Carolina, USA.

The Trees on the community.

Several years ago, the Town of Matthews planted trees in our community. This note addresses questions that several homeowners have raised on many occasions during annual meetings.

We consulted with the Landscaping Supervisor of the Town of Matthews, who provided us with a direct link to the Town of Matthews' website, where you can find all the information.

The trees are located between the curb and the sidewalk. This area is designated as public property; however, the maintenance of the trees is your responsibility. Removing a tree may require a permit from the Town of Matthews.

Below, you will find several links to resources that will help with any situation regarding your tree.
